ELECTRIFLAME®VR & ELECTRISTOVE®VR

Virtual Reality – Advanced Flame Projection

View our latest range of Electriflame VR '3-Sided Glass Fires and Suites' for superior flame aesthetics. This latest patented design raises the appearance and functionality of electric fires to a new level.

Conventional electric fires feature flames on a flat screen at the rear of the product, with E-VR Flame Projection Technology we create the flame illusion to the front, the centre, and the rear of the fuel bed. This creates a totally natural log fire effect, within a range of free-standing Suites, wall mounted fires, hearth inset fires, and outset Stoves.
